

CUSTOMER INFORMATION

Access to Site: Buildings are delivered by road. The driver may be unaccompanied. He will carry components up to 50 paces. If further, please advise us and provide assistance. Please note that most buildings will not fit through the house or through a side entrance with fixed headrail.

Site Preparation: The customer is responsible for site preparation. A firm level base is required. Please ask for an information sheet or see reverse of order acknowledgement.

Delivery Charge: Free to postcodes BR, CT, DA, ME, RM, SS and TN. £60 to London and post codes BN, CM, CR, EN, GU, HA, IG, KT, RH, SM, TW, UB and WD.

Erection Service: Available in free delivery area only. Erection is carried out at time of delivery so a firm level base must be prepared in advance. Return visit surcharge £25.

Customer Assembly: Our buildings enjoy a high degree of prefabrication in our factory. The assembly process is relatively straightforward, requiring DIY skills and basic hand tools. Buildings are supplied complete including felt, glass, fixings and assembly instructions. Please note that some components are heavy.

Ground Anchoring: Ground anchoring to prevent wind damage is the responsibility of the customer. Many buildings are adequately located by self-weight but if in doubt, stake down. With the exception of Apex Garden Workshops sold without floors for which we offer ground anchor brackets at extra cost, ground anchoring work is not undertaken by Passmores.

Routine Maintenance: Brush apply wood preservative to the exterior within six months, thereafter annually. Periodically cut back overhanging trees and shrubs, check felt for leakage and oil hinges and locks.
